POSSIBLE SALE OF INMAN STEAMSHIPS. POSSIBLE SALE OF INMAN STEAMSHIPS.

Rumors have been afleat for several days that the Guion and the Anchor steamship lines were both negotiating for the purchase of the Inman Company's vessels and its good will in the Liverpool trade. It was learned yesterday that the Inman Line stockholders were anxious to get rid of their property if they could do so to good advantage, owing to the great losses which the company has sustained in the last four months. Propositions were recently made to the Guion Line, which were not entertained; negotiations have been pending with the Anchor Line for some time, and are still under consideration. It is understood that the Anchor Line offered to give the Inman Company 25 per cent of the actual cost of the steamships City of Richmond, City of Berlin and City of Chester. These were the only vessels of the line that the Anchor Company cared to purchase. This proposition was emphatically declined by the Inman Line stockholders.

Statements were also made that pleasant relations the property of the severed for some time between

The Barrow Shipbuilding Company built for the Inman Line the steamship City of Rome; she did not have the speed guaranteed, and her cargo capacity was 30 per cent less than promised. After a few trips the City of Rome was returned to the shipbuilding company, and the Duke of Devonshire declared his determination to "get even." He immediately but her on the Liverpool route of the Anchor Line, the trade of which the line has long been desirous of building up. The company has now put the steamships Belgravia and Furnessia, in addition to the City of Rome, on the Liverpool route, and desires to add three more steamships to make the service complete. For this reason it is anxious to purchase the three vessels mentioned of the Inman Line, also its name and good will.

SETILING AN IMPORTANT REVENUE CASE. The criminal action against George D. Bayand and Gustave F. Perrenoud, the New-st, liquor-dealers, which was said by Commissioner Raum to be one of the most important suits with which the Internal Revenue Bureau had been concerned, was settled yesterday by compromise, The defendants were charged with having been engaged with Goodrich H. Bush, of Westfield, Mass., in extensive frauds by the use of washed stamps. The method adopted as described in the affidavits for the prosecution was to send barrels of spirits from Bush's distillery in Massachusetts to Messis, Bayaud & Perrenoud, who would return the stamps to be used a second time. Several indictments were found last October in the United States Circuits Courtagainst the liquor merchants, and civil suits were begun both here and in Massachusetts. A civil suit for \$20,000 is now pending in the United States District Court. The defendants pleaded guilty to one of the indictments against them, being induced to do so, as they aliege, by the advice of their counsel, William Dorsheimer and E. T. Wood. An effort was made to have the case compromised, but District-Attorney Woodford advised against such action, and an offer of \$3,500 was rejected by Commissioner Raum, General B. F. Tracy and A. J. Dittenhoefer were then engaged as counsel, and an application was made in January last for leave to withdraw the plea of guilty. The motion was denied by Judge Benedict. A motion was then argued before Judges Wallace, Benedict and Brown for a new trial. This motion was denied, and the argument on an appeal from Judge Benedict's refusal to allow the defendants to withdraw their plea was to be heard yesterday by the court in banc. The defendants have been out on bail, \$30,000 having been given as security in each case.

Renewed efforts have been made in the last two months, both by the counsel for the New-York merchants and by Governor Benjamin F. Butler of Massachusetts distiller, to secure a compromis SETTLING AN IMPORTANT REVENUE CASE.

THEIR LABORS NEARLY CLOSED.

The Commissioners of Emigration yesterday held what will probably be their last regular meeting at Castle Garden, since the Governor has signed the bill providing for a salaried Commissioner in place of the present Board. President Hurlbert was absent, owing to a serious illness. Commissioner Starr presided, and Messrs. Stephenson. Forrest, Ulrich, Taintor and Hauselt were the only other members present. A report of Mr. Gray, an expert accountant who has been examining the accounts of the Commission for the last three years, was presented. Mr. Ulrich suggested that the report should not be made public until the next meeting, to give the committee time to analyze it. Mr. Stephenson sarcaetically asked: "When will te the next meeting!"

Stephenson sarcartically asked: "When will be the next meeting!"
Mr. Hauselt—I don't know!
Mr. Stephenson—Well, I want it understood that I shall not attend another meeting.
Mr. Ulrich—We shall have to have another meeting to turn over the aflairs of the Commission. It would be hardly the thing for us to walk out of the place because we happened to see in the newspapers that a Commissioner had been appointed to succeed

us.

It was resolved that the president should be empowered to call a meeting at any time necessary.

ACCUSED OF GRAND LARCENY.

Isaac Sippili was arrested vesterday on a bench warrant from the Court of General Sessions, on a charge of grand larceny. Michael Lewinson, of the firm of Lewinson & Co., on whose complaint the arrest was made, charges that in September, 1882, he was induced by representations made by Sippili to lend him two of the notes of the firm for about \$10,000. He was also induced to exchange one of the firm's checks for \$2,500 for Sippili's check for the same amount, which did not turn out to be good. Since that time, the affidavit charges, Sippili has made an assignment and has mortgaged his house to Abraham Stein. The complaint also alleges that other sums have been loaned by other persons to the defendant on his representations. Sippili was arraigned before Recorder Smyth and was admitted to bail in the sum of \$3,500, Abraham Stein, of No. 89 Gold-st., becoming his bondsman.

THE PROPOSED TRIESTE LINE.

The dispatch from London stating that the Cunard Steamship Company had asked the Austrian Government for a concession to enable it to run a line between Trieste and ports of North and South America was much discussed in shipping circles yesterday. At the Cunard office in this city it was stated that the report was the first information received by the agents here. It was said by other agents that it was not a matter connected with the Cunnard Company directly, but an enterprise in which the MacIvers, who recently withdrew from that company, are interested. Under the terms of a compact made with the Cunard Company eleven years ago, the MacIvers agreed not to become interested in any other transatlantic line between England and the United States for fourteen years. As this agreement is binding for three years yet, it is believed that the MacIvers intend to evade it by running lines from Trieste. THE PROPOSED TRIESTE LINE.

COMFORTS FOR WORKING-GIRLS.

Early last summer Mrs. J. Minerva Judge, with the assistance of a number of well-known merchants and others, opened a home at No. 141 East Sixteenth-st. for working-girls. It was well furnished; pictures were hung on the walls, soft carpets and ruzs covered the floors, and every effort was made to give the place an inviting appearance. The Society of the Workingwoman's Relief for the Sick, under whose anspices the home was opened, circulated 10,000 copies of a bright little paper called The Workingwoman's Friend, in which the object of the new enterprise was clearly set forth. By the payment of an initiation fee of \$1 and a monthly due of 25 cents any young woman of good moral character can become a member of the society and share the advantages of the home. In case of sickness members are entitled to receive from the society \$3 weekly during the time they may remain incapacitated. Free medical attendance is also supplied. The home, although at first designed merely as a place of refuge for the sick, soon became the efforts of Mrs. Judge a comfortable reading-room well supplied with books and current periodicals was opened. Afterward an organ was added, and now on almost every evening of the week voices may be heart in the parlor singing the popular selections of the day. JOHN JAY AND THE EXCISE LAW.

John Jay, the chairman of the Citizens' Committee appointed at the Steinway Hall meeting called in relation to the enforcement of the Excise laws, sent a letter yesterday to District-Attorney McKeon asking for an interview upon the questions which the committee have been considering. After referring to the information obtained at meetings with the Mayor and Police Commissioners, Mr. Jay, in behalf of the committee, asked for the advice and assistance of the District-Attorney. The letter continues:

We would be glad to know, for instance, whether in your opinion the non-enforcement of the law is due, in any degree, as regards the office of the District-Attorney, to remissness and delays in the prosecution of odenders; or as regards the Justices, before when they are brought, to the smalness of the bail demanded for their appearance, to unreasonable conditions as to the evidence required or to the lightness of the penalties imposed on their conviction.

An answer to the communication of the committee is desired by interview or letter before the end of this month.

Another public meeting to discuss the excise question has been called for the evening of May 1 at Steinway Hall. At that meeting six resolutions are to be discussed. Dr. F. H. Smith will move a resolution of thanks to the Citizens' Committee and Stewart L. Woodford a like resolution to the Mayor, for the nomination of Mr. Phillips as an Excise Commissioner. The Rev. Dr. Crosby will propose the following resolution:

That the undue preponderance of the liquor dealers in the Board of Aldermen, and their control over the Excise Commissioners, are dangerous to the well being of the community, and we piedge ourselves to oppose their return at the next election, and to support such changes in the charier as will take away from the Board its confirming power.

The Rev. Dr. Tiftany will introduce a resolution of thanks to Recorder Smyth and the prosecuting officers for their recent vigorous enforcement of the Excise laws, and Judge Noah Davis will propose the drafting of a bill restricting the number of liquor stores to a maximum of one to 500 of the population and mereasing the license fees. Robert Graham will propose further) active discussion of the excise question.

PRESIDENT RICHARDSON TO BE ARRESTED. A letter was sent by Mayor Low yesterday to Police Commissioner Jourdan in Brooklyn, calling his attention to the fact that citizens had complained of the violation of the Penal Code by the Atlantic Avenue Railroad Company in laying a track switch on Sunday morning, and that Police Captain McKellar failed in his duty in a track switch on Sinday monaing, and that Police Captain McKellar failed in his duty in allowing the work to proceed unchallenged. The president of the company said that the work was not forbidden by the law, as it caused less inconvenience at that time than at any other. The Mayor further said that he had advised a formal complaint against the president of the company or those engaged in the work to secure a legal decision and asked the commissioner to furnish assistance in securing the necessary evidence. The Mayor also instructed the commissioner to direct the captains of police to allow no railroad work on Sundays except on specific authority from him.

The residents of Seventh-ave, where the work was done, intend to take steps to-day to secure warrants for the arrest of William Richardson, president of the company, and of the men employed in the work.

POVERTY AND ATTEMPTED SUICIDE.

On Wednesday John O'Connor's family, consisting of himself, his wife Mary, and five children, the eldest of whom is eight years of age, and the youngest nine months old, were dispossessed from their home at No. 427 East Nineteenth-st. Mrs. O'Connor was soon afterward arrested for drunkenness and was locked up in the Eighteenth Precinct Police Station. There she tore her jucket into strips and tried to hang herself. Feiled in this by the doorkeeper, F. McNulty, handcuffs were then placed upon her wrists. Soon afterward she was caught trying to dash her brains out against the cell walls. She was then sent to Bellevue Hospital. In the Yorkville Police Court yesterday Justice Murray committed her in default of \$300 ball for trial. Two of the children were committed to the care of the Sisters of St. Dominick. The infant will be left in the care of the mother, and the father will look after the other children.

TURNING THE TABLES ON TWO WITNESSES.

Washington H. Taylor and John Thorpe were two of the witnesses against Thomas Cusack, who was tried in the Court of General Sessions last February on a charge of assault. The two witnesses testified that when they entered the rooms of Mrs. McCartney, at No. 110 Catharine-st., on January 7, they were assaulted by Cusack without provocation. This testimony was contradicted by that of other witnesses, who showed that the two men had entered the room for the purpose of assaulting Cusack, that they had wounded him with a knife and had knocked down Miss Mary McCartney, and that Cusack had only acted in self-defence Cusack was acquitted, and Judge Gildersleeve directed that the prosecuting witnesses should be arrested and a com-TURNING THE TABLES ON TWO WITNESSES. acquitted, and Judge Gildersleeve directed that the prosecuting witnesses should be arrested and a complaint made by Cusack. THE SALE OF MARKET STANDS.

THE SALE OF MARKET STANDS.

The Committee on Markets of the Board of Aldermen yesterday gave a hearing to standholders in the various markets in regard to the proposed ordinance to regulate the sale of stands. R. G. Cornell, in behalf of the Washington Market standholders, strongly opposed the ordinance. He said that the proposition to sell the stands at auction every three years would be fatal to the business. Now a man builds up a profitable trade by an honest course and is enabled to keep it. But if his stand were to be put up at auction every three years the fruits of his labor might be taken by some other person. The stand-owners were opposed to the proposition to forbid non-residents from owning a market stand. The committee will hold another meeting to consider the subject.

Castle Garden was crowded with 2,600 immigrants yesterday. Their ignorance of the value of American money was exhibited in their purchases at the bread stand. One man gavenine \$5 gold pieces for a loaf of pumpernickel to Mr. Murray, who handed them back to him and explained his error. The man was so grateful that he embraced Mr. Murray and attempted to kiss him, but the latter objected, as he desired that the women should be given the first chance.

N. August Gyr, a Swiss immigrant on the steamship Labrador, was taken to Castle Garden Hospital yesterday. On April 15, at sea, he attempted to commit suicide by cutting his throat and wrists. THE CIGAR MAKERS STRIKE.

Both manufacturers and workmen in the clear Havana cigar business are in a state of expectancy. There is no change in the situation other than the eading of the strike in the shops of Lopez, Frugillo & Co., Manuel Valdez and Henry I. Behrens by the advance being conceded. A hopeful feeling prevails at the headquarters of both the Cuban societies. A meeting of manufacturers was held yesterday afternoon, but the strikes were not discussed, the only business transacted being the presentation of a watch to W. E. Barnett in recognition of his services in Washington last winter in preventing adverse tariff legislation. A meeting of manufacturers will be held this afternoon and arrangements looking to the ending of the strike will probably be made.

preventing adverse tariff legislation. A meeting of manufacturers will be held this afternoon and arrangements looking to the ending of the strike will probably be made.

It was reported at the office of the Cigar Makers' Progressive Union that the committee appointed to wait on Straiton & Storm had done so. They asked an advance of \$1 a thousand in the Twenty-seventh Street factory and \$1 35 in the Thirty third Street factory, where the cigars are made with long-cut tobacco fillers. It was said that the men at the latter factory were told to look out for another situation after Thessiny as the firm would not pay the advance. Messrs. Straiton & Storm said that they had received the request yesterday morning and that the matter was referred to the Arbitration Committee which will meet on Monday. When asked in regard to the Thirty-third Street factory, Mr. Straiton said that the same course would be pursued in both factories, the Union to the contrary notwithstanding.

A THIRUNE reporter visited the factory of Sawyer & Martin, in Rivington-st., where he was informed that their men had struck several weeks ago. The strikers were discharged and non-union men were secured to take their places. They had paid the advanced wages as soon as the other large manufacturers had done so and were paying them now. No Progressive Union men were permitted to work in their factory. They have had no difficulty in getting all the men they wanted, however, and were working full force now. There is considerable dissatisfaction among some of the employes of the Kinney Tobacco Company, manufacturers of eigarettes. It was stated by the workmen that the company employed a number of girls between the ages of eight and twelve years, at pay ranging from \$1.50 to \$2 a week; that the children were barefooted and half clothed; that they were worked from twelve to \$1.50 to \$2.50 men and an advance of paying from exhaustion. Meetings have been held for the purpose of forming a union and asking for higher pay. The workmen say that the pay of runn

OTHER LABOR TROUBLES.

PITTSBURG, April 26 .- A delegation of thirty coal miners started to-day to visit all the pits where the

men are working at the reduction and endeavor to get them to join the strike, which will be begun next Tues day. The miners are confident of accomplishing their day. The miners are confident of accomplishing their mission, but the operators assert with equal assurance that they will not be successful. The Conference Committee of the Almalgamated Association and the iron manufacturers will meet again on Wednesday, May 3, and make another attempt to arrange a scale of wages for the ensuing year from January 1.

Carlinville, Ill., April 26.—The coal miners at Stanton, Mt. Olive, Gille-pie and Bunker Hill are on strike. They demand an advance of a cent a bushel. The strikers number from 1,000 to 1,500 men.

Bordentown, N. J., April 26.—The cigar-makers of Reeder, Ganel & Co., of this city, who stopped work a few days ago because of not receiving a satisfactory answer to their demand for \$1 a thousand for making

answer to their demand for \$1 a thousand for making cigars, have been informed that their demand is con-ceded, and have accordingly returned to work.
